Essay writing Competition on Climate Change

“Climate change is an urgent and growing threat to world, contributing to increased natural disasters, refugee flows, and conflicts over basic resources like food and water. The present day effects of climate change are being felt everywhere. Increased sea levels and storm surges etc. The impacts of climate change could directly affect the Nation’s critical infrastructure and property. NSS unit of Government Engineering College, Dahod organized Essay writing Competition on Climate Change on 19/09/2022. 57 students are actively participated in this competition from B.E. Mechanical and Electronics & Communication Branch.
