## **Slogan Making Competition on Climate Change**

Climate change is an urgent and growing threat to world, contributing to increased natural disasters, refugee flows, and conflicts over basic resources like food and water. The present day effects of climate change are being felt everywhere. Increased sea levels and storm surges etc. The impacts of climate change could directly affect the Nation's critical infrastructure and property. NSS unit of Government Engineering College, Dahod organized Slogan making Competition on Climate Change on 20/09/2022. 55 students are actively participated in this competition from Undergraduate Programme.

**Global Warming is real  
Don't burn your kid's future. Stop Global  
Warming  
Global warming, bad for farming.  
Stop burning yourself.  
Being cool has never been so hot.  
Global warming –It's really not cool.  
One planet, one chance. Stop Global Warming  
Don't be a fool, make earth cool.  
We don't have time. Stop Global Warming  
The Earth has a fever. Is Man a virus?  
Trees can beat, the rising heat.**

**Green planet is better than a warm planet.  
The climate is changing, so should we!  
Excessive burning will burn the Earth.  
Be cool and let the earth be cool.  
The Globe is warming and will set to fire.  
Mother earth is suffering.  
Stop polluting, it will cost extra.  
Treat your planet like you want to treat.**
