

A Report on **SWACHHATA HI SEVA**

Location: Religious Places of Dahod

Date of activity: 04/11/2023

In observance of Mahatma Gandhi's birth anniversary and in accordance with institutional directive Ref. No. GECD/2023/650 dated 02/11/2023, the "Swachhata hi Seva" cleanliness campaign took place on 04/11/2023 (morning). Prof. S. P. Chandresha (Applied Mechanics Department), Prof J. M. Patel (Mechanical Department), Prof N. R. Sheth (Mechanical Department), Prof S. N. Damor (EC department), along with 20 students from Government Engineering College, Dahod, participated in the campaign, visiting various religious sites in Dahod.

The campaign's objective is to instill the importance of cleanliness and foster habits of cleanliness in public spaces, recognizing that cleanliness is fundamental to a healthy and prosperous society. This includes not only personal hygiene but also the upkeep of public spaces, water bodies, and the environment. Cleanliness goes beyond mere appearance; it profoundly influences public health, sanitation, and overall quality of life.

During the campaign, we engaged with devotees, individuals, temple priests, and vendors of religious materials, raising awareness about the significance of cleanliness. We emphasized the need to incorporate cleanliness into their daily routines everywhere, contributing to the nation and society, encapsulated in the motto "**Swachhata Hi Seva.**"

Here are a few glimpses of the cleanliness activities conducted by the students and faculty members of Government Engineering College, Dahod on 04/11/2023.
