## Remedial Lecture

on

## “Basic Mechanical Engineering”

(Course / Subject Code: BE01000081)

(For first year students of degree engineering)

Date: 07-12-2024, Time: 11.00 AM-1.00 PM

Joining Link: [meet.google.com/hey-dfrd-qmw](https://meet.google.com/hey-dfrd-qmw)

### Purpose of this remedial lecture:

The purpose of this remedial class is to help students to close the gap between what they know and what they need to know, and to improve their academic performance. This lecture also helps students who get late admission to the institute to cover up the syllabus to make their subject foundation strong. This also boosts the performance of the students who got poor marks in their mid/remedial semester examinations to show them right direction for future preparations of the subject.

### Speaker and Contact Person:

**Dr. D.B. Jani**

PhD (IIT ROORKEE)

Associate professor
