Announcement Regarding Performance in **Professional Ethics**

As we progress through the B.E. semester 5, it is imperative for us to maintain transparency and ensure the academic integrity of our program. With this in mind, I am writing to inform you about an important matter regarding student performance in the course of **Professional Ethics**.

Following a comprehensive evaluation of student progress, it has come to my attention that there are individuals within the class who may be experiencing challenges or difficulties in keeping up with the academic expectations of the course. In the interest of providing appropriate support and guidance to all students, we believe it is crucial to address these concerns openly and collaboratively.

As part of our commitment to fostering academic success, I will be publishing a list of students who are currently identified as facing academic challenges within the course of **Professional Ethics**. It is important to note that the purpose of this publication is not to stigmatize or criticize individual students, but rather to encourage a proactive approach to support and intervention. Our primary goal is to provide assistance and resources to help these students overcome their challenges and achieve their full potential so that all students have the opportunity to thrive and succeed.

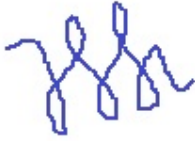

Following is the list of the students that will need further guidance in the course:
